

Effective Assessment

set of two double-sided posters (50cm x 35 cm)

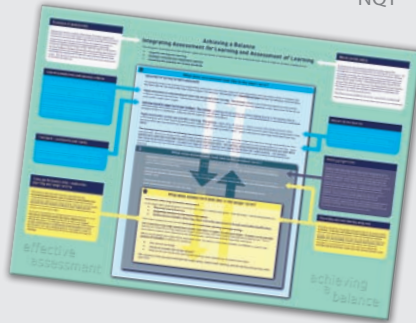

‘I don’t really understand how summative and formative assessment can work together – is there an easy explanation?’

NQT

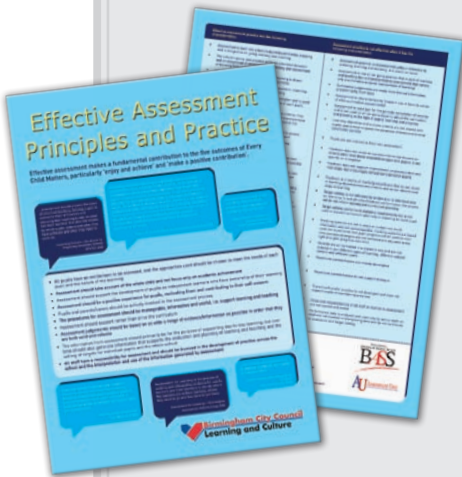

‘What is the best way to track pupils’ progress effectively?’

DEPUTY HEADTEACHER

‘From time to time we need to reflect on assessment practice, especially relating to summarising, recording and tracking progress – is there a helpful resource out there?’

SUBJECT LEADER

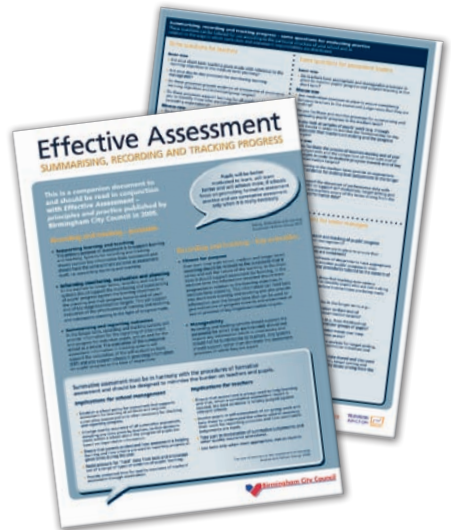

Assessment is central to effective learning. ‘Effective Assessment’: ‘Principles and Practice’ and ‘Summarising, Recording and Tracking Progress’ provide a rationale for the links between learning and assessment and explore the relationship between formative and summative assessment. Relevant to both primary and secondary schools for individual teachers, subject teams, year groups and whole staffs, this best selling deceptively compact resource is a must for any staffroom.

Birmingham
on assessment

Effective Assessment:

- shows how assessment can be integrated into planning and into learning and teaching to achieve a balance that helps develop motivated and independent learners, and maximises the potential for raising standards
- includes practical and versatile checklists which are helpful in reviewing policy, practice, and planning
- is useful to all teachers in all schools
- is a valuable professional development resource
- may be used in connection with either of the AFL DVD/booklet packages, but is also valuable freestanding material.

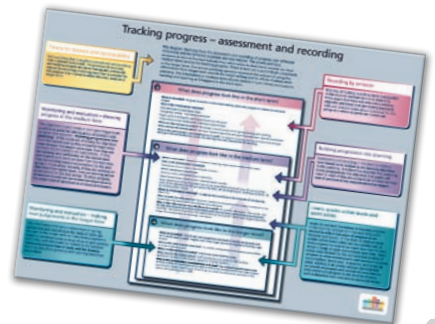

Effective Assessment will:

- build your understanding of assessment planning and practice through its 'no-nonsense' approach and practical advice - it's as if the adviser for assessment had dropped in with some helpful ideas
- promote confidence in using both formative and summative assessment
- support you in aligning short-, medium- and long-term planning
- support professional development and promote discussion.

‘We need to remind ourselves continually **why** – and **what** – we’re assessing and recording. How can I keep assessment in everyone’s mind?’
